

Learning and Achieving Together: Become a Host Organisation

Enjoy the opportunities our international interns can help you realise

About us

White Cloud Internships offers a unique internship programme to international university students completing practical work experience placements with our host organisations across social and educational sectors here in New Zealand.

Our team has comprehensive experience in disability service delivery, and we have offered over 350 successful internships in this particular sector over the past 17 years.

We enjoy experiencing our interns enabling good lives for disabled people together with our host organisations, and how they in general contribute to the ongoing development of best practice.

Our programme is designed to enable all involved to have positive outcomes and great experiences.

Our Interns

Our interns are here to learn and contribute supporting and educating people with disabilities as part of their university qualifications including Social/Special Education, Social Work, Nursing and Applied Psychology.

They are expected to practice and demonstrate a range of relevant skills and attitudes applying themselves on average 30 hours per week supporting your people.

Internship periods range from 5-10 months. Our interns are unpaid but are very well looked after by us personally, socially and educationally.

What we do for you

Recruitment & Vetting

- We take care of all recruitment and vetting requirements
- We match our interns with ideal workplaces, where they can learn and contribute
- We complete all forms and contracts

Supervision & Support

- We offer our interns comprehensive academic and professional supervision and personal support
- We complete all university reports and evaluations

Educated Supplementary Staff

- Our unique programme is attractive for interns and endorsed by their universities overseas enabling us to offer you an ongoing supply of interns
- Our interns make a difference for your staff and your people

We charge a professional fee for the work we do on your behalf to ensure a positive and enabling experience for all involved
