

The benefits of hosting interns

Learning and Achieving together

About us

White Cloud Internships offers a unique internship programme to international university students completing unpaid practical work experience placements with organisations across social and educational sectors here in New Zealand.

We have comprehensive experience supporting and supervising over 450 interns. We enjoy being part of their personal and educational journey, while experiencing the positive outcomes they enable for individual and groups of children in New Zealand schools.

We currently work with schools in Auckland and Wellington, and the growing demand for our internship programme with universities overseas means, that we are able to partner up with more schools.

Our Education Interns

Our Education Interns are here to apply themselves professionally in New Zealand schools. They usually function as learning assistants, which enable them to acquire the experience they desire while making positive differences for children and schools overall.

They are expected to practice and demonstrate a range of relevant skills and attitudes working on average 30 hours per week. They are here to gain experience and they are here to impress.

Internship periods range from 5-10 months. Our interns are very well looked after by us personally, practically and professionally.

What we do for you

Recruitment & Vetting

- We take care of all recruitment and vetting requirements
- We match our interns with schools, where we are confident they can learn and make a difference
- We complete all formal forms and contracts

Supervision & Support

- We offer our interns comprehensive academic and professional supervision and personal support
- We complete all university reports and evaluations

Educated Supplementary Staff

- Our unique programme is attractive for interns and endorsed by their universities overseas - enabling us to offer you an ongoing low cost staffing resource
- Our interns make a difference for your children and staff

We charge a professional fee for the work we do on your behalf to ensure a positive and enabling experience for all involved
